seohyeon-min.github.io/my_portfolio

Student organizer who brought together 24 participants across six game-jam teams and six live acts from DigiPen, BARD, and an independent band. I build the communication and operating structure that helps different student groups work together, then carry each initiative through budgeting, scheduling, on-site execution, and closeout.

LEADERSHIP & EVENT EXPERIENCE

DANGLING GAME JAM

FOUNDER / EVENT PRODUCER | 2025

- Founded and delivered the university's first interdepartmental game jam, bringing together 24 participants across 6 teams for a 36-hour event; every team completed and submitted a playable game.
- Managed university approvals, an approximately KRW 800,000 budget, promotion, participant communication, scheduling, on-site operations, final submissions, and event materials from proposal through closeout.
- Earned a 4.87/5 satisfaction score from 23 post-event responses by creating a structured environment where cross-disciplinary students could collaborate and finish their work.

JOINT BAND PERFORMANCE

CO-ORGANIZER | MAY 2025

- Co-organized a two-hour live performance featuring six acts from DigiPen, BARD, and an independent band, connecting students and performers across separate communities.
- Coordinated rehearsals, cross-group announcements, setlists, equipment load-in and setup, show order, venue-day communication, and post-event logistics.

PLUSH PRODUCTION

INDEPENDENT PROJECT / EXTERNAL OPERATIONS

- Generated approximately KRW 10 million in total revenue through prepaid Witchform orders, setting production quantities from confirmed demand to avoid unsold inventory risk.
- Sourced and negotiated with a Chinese manufacturer, reviewed samples and revisions, and connected freight forwarding, defect inspection, domestic delivery, and Peing buyer Q&A; into a factory-to-customer workflow.

TOO HOT!

PROJECT LEAD / TECHNICAL PRODUCER | 2026

- Directed two programmers and coordinated gameplay, art, UI, VFX, audio, and presentation through a 130+ item prioritized backlog.
- Secured an offline exhibition booth at a Korean game event for October 2026 and coordinated the team's preparation of the project for public presentation.

ADDITIONAL PROJECT LEADERSHIP

NEW MANZO - Lead long-term scope, milestones, ownership, cross-discipline communication, and delivery planning while contributing hands-on technical support.

STREET TYPER - Scoped and coordinated a public 10-day team build, aligned visual and technical work, published it on itch.io, and support its preparation for Steam release.

SKILLS

Event Production	Proposals, approvals, schedules, run-of-show planning, promotion, participant communication, on-site operations
Student Community	Participant outreach, cross-group communication, multidisciplinary collaboration, feedback collection
Operations	Budgeting, purchasing coordination, vendor negotiation, sample review, logistics, fulfillment, risk management
Project Leadership	Team coordination, task ownership, prioritization, review, actionable feedback, issue resolution
Technical Tools	Notion, GitHub Projects/Issues, Witchform, Peing, Unity, C++, C#, Git review and integration

EDUCATION

B.S. Computer Science in Real-Time Interactive Simulation | 2026-Present | Expected Graduation: May 2028
Keimyung University / DigiPen Institute of Technology | GPA 3.958/4.0
