Producer and project lead who carries games, events, and physical products from planning through delivery. I align multidisciplinary teams and external partners, negotiate resources and constraints, track execution, resolve delivery risks, and build repeatable operations across production, live events, vendors, logistics, and customer communication.

"She was able to care just as much about her teammates as she did about her own work." — [Jonathan Holmes, DigiPen Instructor](#) 🏆

SELECTED EXPERIENCE

DANGLING GAME JAM

FOUNDER / PRODUCER / PROJECT LEAD |
2025

- Founded and delivered the university's first interdepartmental game jam: 24 participants, 6 teams, and a 36-hour production window; every team completed and submitted a playable game.
- Owned the event from proposal through closeout, including university approvals, an approximately KRW 800,000 budget, promotion, participant communication, on-site operations, final submissions, and visual materials.
- Achieved a 4.87/5 participant satisfaction score across 23 post-event responses while coordinating cross-disciplinary participants and keeping all six teams on track to finish.

PLUSH PRODUCTION 🏆

PRODUCT DESIGNER / VENDOR &
FULFILLMENT LEAD | INDEPENDENT

- Opened prepaid preorders through Witchform and set production quantities from confirmed paid demand, minimizing upfront capital exposure and unsold inventory risk while generating approximately KRW 10 million in total revenue.
- Sourced a manufacturer through Taobao, negotiated schedule and unit pricing, commissioned and reviewed physical samples, communicated revisions, and approved mass production at the intended quality and cost.
- Built a direct factory-to-customer workflow across freight forwarding, defect inspection, and domestic delivery; centralized order, production, and shipping Q&A through Peing. The public account reached 235 followers and 1,000+ cumulative reposts.

TOO HOT! 🏆

TECHNICAL / CREATIVE PRODUCER | 2026

- Directed two gameplay programmers, defined the project's technical structure and implementation priorities, and coordinated gameplay, art, UI, VFX, audio, and presentation through a 130+ item P0-P3 backlog.
- Owned the integration branch and final merges; reviewed every code contribution, identified architectural and gameplay issues, gave actionable feedback, requested revisions, and verified fixes in the build.
- Turned design risks into concrete system requirements and player-feedback decisions; secured an offline booth at a Korean game event for an October 2026 exhibition.

ADDITIONAL EVIDENCE

TEACHING ASSISTANT - Supported ~30 students across DigiPen Korea's Game Development Project I cohort with technical problem-solving, debugging, and actionable project feedback.

JOINT BAND PERFORMANCE - Co-organized a two-hour live show featuring six acts from DigiPen, BARD, and an independent band; coordinated rehearsals, team communication, setlists, equipment load-in, show order, and post-event logistics.

NEW MANZO 🏆 - Lead long-term scope, ownership, milestones, cross-discipline communication, and delivery planning while contributing hands-on technical support; repository lead contributor with 417 commits.

STREET TYPER 🏆 - Scoped and coordinated a public 10-day team build, published it on itch.io, and support its preparation for Steam release while owning visual direction, UI, VFX, and gameplay readability.

MANZO 🏆 - Bridged design, art, and engineering while directly implementing rhythm, rendering, particles, debugging, Git integration, and final presentation; 366 commits.

SKILLS

Production	Scope/milestone planning, P0-P3 prioritization, ownership, risk identification, acceptance criteria, review, testing, integration
Operations	Event production, vendor sourcing and negotiation, sample review, preorder planning, fulfillment, customer communication
Planning Tools	Notion, GitHub Projects, GitHub Issues, Witchform, Peing; task documentation, status tracking, review and rework loops
Technical	Unity, C++, C#, OpenGL, GLSL, ShaderLab, Git branching and merge review, CMake; graphics/gameplay debugging

EDUCATION

B.S. Computer Science in Real-Time Interactive Simulation | 2026-Present | Expected Graduation: May 2028
Keimyung University / DigiPen Institute of Technology | GPA 3.958/4.0
