

MIN SEOHYEON

GAME PRODUCTION | TECHNICAL PRODUCTION

weare1842@gmail.com
Temporary U.S. (206) 990-4593 | +82 10-8655-4365
github.com/Seohyeon-Min |
seohyeon-min.github.io/my_portfolio

Technical producer who turns creative intent into implementation-ready requirements and shipped work. My strongest evidence is not title-based: I build systems and visuals myself, identify architecture and player-feedback risks, direct programmers with concrete acceptance criteria, and carry work through review, testing, merge, and polish.

SELECTED EXPERIENCE

TOO HOT!

TECHNICAL / CREATIVE PRODUCER | 2026

- Directed two gameplay programmers while directly owning shaders, VFX, UI, art, animation, and final integration for a Unity boss-action game.
- Converted design goals into a 130+ item P0-P3 backlog across gameplay, art, UI, VFX, audio, and presentation; assigned owners, documented acceptance details in Notion, reviewed code and behavior, requested revisions, merged work, and followed with effects polish.
- Specified a data-driven GameManager/StageData architecture, save and chapter-boundary safeguards, and editor debug controls. Prioritized camera response over redundant damage numbers and hid full-health boss UI; secured an offline booth at a Korean game event for an October 2026 exhibition.

DANGLING GAME JAM

FOUNDER / ORGANIZER / VISUAL DESIGNER | 2025

- Founded and delivered the university's first interdepartmental game jam for 24 participants across five departments in a 36-hour event.
- Managed proposal and approvals, an approximately KRW 800,000 budget, promotion, participant communication, event operations, final submissions, and poster design from concept through closeout.

NEW MANZO

PRODUCTION LEAD / TECHNICAL CONTRIBUTOR | 2025-PRESENT

- Coordinate long-term scope, ownership, cross-discipline communication, and technical support for an in-development Unity rhythm-adventure project.
- Directly contribute fish schooling, obstacle avoidance, beat-linked hunting, raycasting, and post-processing systems; repository lead contributor with 417 commits.

ADDITIONAL EVIDENCE

STREET TYPER - Scoped and coordinated a public 10-day team build, published it on itch.io, and support its preparation for Steam release while owning visual direction, UI, VFX, and gameplay readability.

MANZO - Bridged design, art, and engineering while directly implementing rhythm, rendering, particles, debugging, Git integration, and final presentation; 366 commits.

DOUBLE HIT / BIRD STRIKE - Led small C++ projects while directly implementing engine/gameplay systems and producing art and audio.

SKILLS

Production	Scope/milestone planning, P0-P3 prioritization, ownership, risk identification, acceptance criteria, review, testing, integration
Planning Tools	Notion, GitHub Projects, GitHub Issues; task documentation, status tracking, review and rework loops
Technical	Unity, C++, C#, OpenGL, GLSL, ShaderLab, Git branching and merge review, CMake; graphics/gameplay debugging

EDUCATION

B.S. Computer Science in Real-Time Interactive Simulation | 2026-Present | Expected Graduation: May 2028
Keimyung University / DigiPen Institute of Technology | GPA 3.958/4.0
